ARTICLES

Raynald Paquin, Hank A. Margolis, René Doucet, and Marie R. Coyea Comparison of growth and physiology of layers and naturally established seedlings of black spruce in a boreal cutover in Quebec 1

Mats Hannerz Evaluation of temperature models for predicting bud burst in Norway spruce 9

Olga N. Krankina, Mark E. Harmon, and Anatolii V. Griazkin Nutrient stores and dynamics of woody detritus in a boreal forest: modeling potential implications at the stand level 20

Hartwig W. Pfeifhofer The response of Härtel's turbidity test is controlled by the acidity of the conifer needle extracts rather than by the availability of Ca^{2+} ions 33

Johan Westin, Lars-Göran Sundblad, Martin Strand, and Jan-Erik Hällgren Apical mitotic activity and growth in clones of Norway spruce in relation to cold hardiness 40

Leena Ryynänen Effect of early spring birch bud type on post-thaw regrowth after prolonged cryostorage 47

U. Silins and R.L. Rothwell Spatial patterns of aerobic limit depth and oxygen diffusion rate at two peatlands drained for forestry in Alberta 53

L.M. Balduman, S.N. Aitken, M. Harmon, and W.T. Adams Genetic variation in cold hardiness of Douglas-fir in relation to parent tree environment 62

Todd E. Ristau and Stephen B. Horsley Pin cherry effects on Allegheny hardwood stand development 73

Lars Bollmark, Lisa Sennerby-Forsse, and Tom Ericsson Seasonal dynamics and effects of nitrogen supply rate on nitrogen and carbohydrate reserves in cutting-derived *Salix viminalis* plants 85

Lars Vesterdal Influence of soil type on mass loss and nutrient release from decomposing foliage litter of beech and Norway spruce 95

Quanfa Zhang, Kurt S. Pregitzer, and David D. Reed Catastrophic disturbance in the presettlement forests of the Upper Peninsula of Michigan 106

Colin P. Laroque and Dan J. Smith Tree-ring analysis of yellow-cedar (*Chamaecyparis nootkatensis*) on Vancouver Island, British Columbia 115

Shannon M. Hagerman, Melanie D. Jones, Gary E. Bradfield, M. Gillespie, and D.M. Durall Effects of clear-cut logging on the diversity and persistence of ectomycorrhizae at a subalpine forest 124

Gro Hylen Age trends in genetic parameters of wood density in young Norway spruce 135

Loretta L. Battaglia, Rebecca R. Sharitz, and Peter R. Minchin Patterns of seedling and overstory composition along a gradient of hurricane disturbance in an old-growth bottomland hardwood community 144
